EDUCATION

University of Michigan School of Information - Ann Arbor   *Expected April 2025*

*Bachelor of Science in Information (BSI) specialization in **User Experience Design***
GPA: 4.0

Google Career Certificate Coursera - Online   *Mar 2021 - Aug 2021*

*Certification in **User Experience Design***

EXPERIENCE

User Experience Design Intern II - **Slalom Consulting** | *Detroit*   *May 2023 - Aug 2023*

- Instituted a new framework for conducting effective design audits for both the client and Slalom.
- Orchestrated a comprehensive design audit, identifying areas of inconsistency within the product and providing actionable recommendations to enhance the user experience.
- Produced development-ready designs aligned with the Angular Materials framework and a design library, facilitating efficient front-end implementation.
- Conducted user feedback sessions, collaborating with cross-functional teams to refine designs based on valuable insights, resulting in user-centric improvements.
- Successfully contributed to Slalom's revenue by securing over 40 sprint points purchased by client's product owner during buy-off sessions.

Internship Center Student Assistant - **University of Michigan** | *Dearborn*   *Jan 2023 - Mar 2023*

- Managed and meticulously organized sensitive data within spreadsheets, ensuring data security and accessibility.
- Created and designed more than 10 pamphlets and presentations, playing a pivotal role in orchestrating engagement events.
- Formulated and implemented an effective search strategy for internship opportunities across diverse academic disciplines, consistently uncovering over 15 relevant listings each week.

User Experience Design Intern I - **Slalom Consulting** | *Detroit*   *Jun 2022 - Aug 2022*

- Conducted the redesign of a website, introducing visually captivating and user-friendly designs, and enhanced the sign-up process through the implementation of a new form, resulting in an improved user experience.
- Established a cohesive design system, harmonizing the client's brand identity with their existing logo, ensuring a consistent and professional visual representation.
- Crafted compelling copy for more than 5 crucial sections of the final product, enhancing the overall user experience through impactful UX writing.
- Led user research initiatives, conducting 4 in-depth usability testing sessions to gather invaluable insights for informed design decisions.
- Collaborated seamlessly with Software Developers within an agile framework, facilitating the on-time delivery of a responsive website.
- Documented all data collected and design choices, ensuring transparent communication and a well-documented decision-making process throughout the project.
